LIFE EDUCATION

For more than
25 years Life Education
has been empowering children
throughout New Zealand.

Every year over 250,000 children from primary and intermediate schools are involved in the Life Education programme. Through lessons in our mobile classrooms and teachers using our resources in schools, children learn about healthy eating, being a good friend, good and bad substances and how their body works.

We support and offer schools a shared planning approach to ensure we are meeting individual children's learning needs.

OUR PHILOSOPHY

is based on three principles..

YOU ARE Unique

Never before and never again will there be another child just like you. We try to make each child feel comfortable with their identity and to show them how special they are.

We capture children's imagination using technology that shows them the magnificence of the human body, how it functions and what its needs are.

We need to

SUPPORT & RESPECT

each other, because of the delicate and complex nature of life.

"At least 20% of young New Zealanders will exhibit behaviours and emotions or have experiences that lead to long-term consequences affecting the rest of their lives." *

Growing up in part determines who you are and who you'll be as an adult. Behaviours developed during childhood and early adolescence are predictors of adult behaviours.

^{*} Improving the Transition: Reducing Social and Psychological Morbidity During Adolescence, A report from the Prime Minister's Chief Science Advisor.

OUR FOUNDER

TREVOR GRICE, MNZM, CNZM

Trevor was born in Christchurch in 1932, the sixth of seven children. Just before his fifth birthday his father was tragically killed at work. Shortly after, Trevor was admitted for several months to Cholmondeley Children's Home, his admittance notice read "malnourished and no shoes".

After these months in care Trevor returned to his family home and resumed his schooling, first at St Annes School and then at Xavier College. World War 2 was having its impact on many families; in the absence of male relatives Trevor worked to support his family at a milk round before school. Moving on after college to Christchurch Polytechnic he achieved the certification necessary to take up a cadetship with the NZ Post Office, becoming a senior telegraphist.

In 1967 he joined the United States Antarctic Program base at Christchurch Airport (Operation Deep Freeze) as a Supply Officer. Over the ensuing years Trevor became increasingly involved with managing issues that arose with service men and women on the ice in Antarctica. Moving to the role of Executive Administrator for NZ Affairs, his duties now included responsibility for the recognition and treatment of drug and alcohol dependencies. The US Navy provided opportunities for him to attend various treatment centres and institutes in America for continued education. It was through this avenue of his work that Trevor developed a reputation as a family crisis counsellor.

Early in 1987 Trevor was approached to bring the Australian Life Education programme to New Zealand. Trevor travelled to meet with the founder, Ted Noffs', wife Margaret (Ted was in hospital having suffered a severe stroke) and spent a week reading Ted's books, meeting with programme and sponsor personnel and

sitting in on classes. As Trevor read, he fell in love with the idea of Life Education. Central to both his medical training and the Life Education programme was an understanding of the 'three pound universe', the human brain. The idea that children could be given so much knowledge and empowerment was revolutionary.

In May 1987 he resigned from his job with the US Navy to work for Life Education New Zealand. Fast-forward ten years and more than 30 regional Trusts had been established and \$30m had been raised as Trevor shared his vision and enthused volunteers nationwide. This resulted in 200,000 children a year taking part in lessons in mobile classrooms. In 1996 Trevor and Tom Scott, along with the Publishing Trust, produced their NZ best seller "The Great Brain Robbery". It has subsequently been translated into several languages and is globally available.

In 1997 Trevor was made a Member of the NZ Order of Merit (MNZM) and in 2000 he was named as a UNESCO Peacebuilder. Rotary International made Trevor a Paul Harris fellow in 2004. In 2000 and 2005 he was named Wellingtonian of the Year for Community Service and Youth Services and in 2010 was further recognised as a Companion of the New Zealand Order of Merit (CNZM).

The founding and current Trustee of Life Education Trust (NZ) Trevor retired from his 'day job' with Life Education in 2014 at age 82. Trevor is still very much a part of Life Education.

Ø

CHAIR'S WORDS

MARIA JOHNSON

I would first of all like to say a huge thank you to the current Board members for their time and dedication to Life Education Trust (NZ). The skills and different strengths you all have help us as an organisation to be able to stay agile in an environment that is completely disruptive. The next five to ten years are going to bring about some of the biggest changes we will ever see and as an organisation we are looking at how we can strategically navigate ourselves through these changes and still be at the forefront of providing quality education "enabling children to reach their full potential."

A huge thank you to John O'Connell our Chief Executive and the National Office team, who, under John's guidance, are continuing to support our Trusts, Trustees, Educators and key sponsors.

In September, we held a strategic planning workshop for a day, to create alignment amongst Board members for the strategic direction of the organisation. Simon Mundell from Results Company donated his time to provide us with the opportunity to discuss our strategy. During the session, we developed our core purpose moving forward, agreed on our Big Hairy Audacious Goal (BHAG), completed an environmental and industry analysis, and agreed on our three to five year moves, 12 month priorities and 90 day plan. This allowed us to create Board papers that focused on moving the organisation forward, instead of just focusing on business as usual.

From this strategy day, we have had two small subcommittee groups working on sustainability and Trust capability. These two subcommittees are separate to our A & R committee. They are working together to bring ideas back to be discussed at Board level.

This year we have had two Board members retire from the Board – Tony Freidlander and Paul Cressey. I would like to thank them both for their time as Board members. Their support and contribution has been significant. I would also like to thank Tony for his guidance and support in my role as Chair.

We have appointed two new Board members – Graham Lawrence and Aisha Daji Punga who are both based in Auckland. Graham has an accounting background and Aisha has a background in marketing and sustainability. We welcome them to our Board and value the additional skills and knowledge they bring.

As an organisation I feel confident that we are addressing issues that have risen, ensuring that we have strong processes and systems in place moving forward. By creating more streamlined approaches within the organisation we are developing a succession plan and continuity across all Trusts. In time, we are hoping that this will also help reduce the number of hours that the National Office spends supporting Trusts.

This year we have had a significant change in our financial management processes. While each Trust is a separate entity, each local Trust's deed provides 'control and benefit' to Life Education Trust (NZ). The changes introduced by the Financial Reporting Act mean that for the first time we are required to produce consolidated accounts of all 33 entities that make up Life Education Trust (NZ). The impact is broader than the additional cost and time, it's a cultural shift toward centralisation for the organisation, which has always had a strong philosophy of independence across the different entities that make up Life Education Trust (NZ). Reviewing this first year of change will provide direction for the years to come.

Maria Johnson

Ø

2016 WAS A GOOD YEAR!

JOHN O'CONNELL - CE

In March The Warehouse advised us we were to be the recipient of the funds raised from The Warehouse Gala Dinner. The event was to support our new collaboration with Garden to Table to create a comprehensive programme for schools using the two organisation's complementary strengths. The collaboration named Empower, brings together both organisation's work in schools being; Life Education's nutrition and physiology teaching and Garden to Table's experiential teaching – Grow, Harvest, Prepare and Share.

The World Health Organization (WHO) report on ending childhood obesity was released in early 2016 and the NZ government adopted these recommendations into the NZ Childhood Obesity Plan. The report makes six key recommendations and the fifth recommendation is to "implement comprehensive programmes that promote healthy school environments, health and nutrition literacy and physical activity among school-age children and adolescents." It promotes:

- Inclusion of nutrition and health education within the core curriculum for schools.
- Improving the nutrition literacy and skills of parents and caregivers.
- Making food preparation classes available to children, their parents and caregivers.

Our collaboration with Garden to Table captures WHO's recommendations and we have created a whole-of-school approach for schools to adopt as best practice. Empower will be developed and fully implemented by the end of 2018.

The changes brought about by the Financial Reporting Act saw our 2016 Financial Accounts consolidated for the first time. Life Education Trust (NZ) has both 'control and benefit' over each of our 32 Trusts and this control requires Life Education Trust (NZ) to incorporate each entity into its own accounts. While it was a significant task to change our practices and implement a standard accounting system and process across 33 entities, the real change for organisations like Life Education is the cultural shift, from a number of entities operating independently to a centralised process. The Life Education Trust (NZ) accounts are no longer those of 'just' the national office income and expenditure, but incorporate the decisions and outcomes of each individual Trust.

In September the Board and senior management spent a day with a facilitator to develop our strategy and our BHAG (Big Hairy Audacious Goal). Sustainability of Trusts was the initial focus, but we quickly moved from sustainability to aspirations - and with that, clarity on our direction, what form disruption might come in and what our opportunities are.

Our BHAG...

By 2025 we will engage directly with 85% of children and families each year.

Engage, directly and families are about developing our tactics beyond the mobile classroom teaching children at schools. We want children to be able to engage with us at any time, independently of the mobile classroom visit and to strengthen our relationship with children and their families.

In 2017 we'll be celebrating our 30th year. Much has changed in those 30 years and there are new opportunities to engage with children and families. We are committed to looking ahead to ensure we continue to evolve to remain as relevant as we were in 1987.

John O'Connell

OUR STRATEGY

We will provide knowledge...

We will lead health teaching in schools and grow the number of children we teach each year. We have an evidencebased approach to our practice and our specialist health teachers strive to meet the individual needs of children in our communities. Our successful mobile classroom concept will evolve to enhance our unique and engaging learning experience.

beyond the mobile classroom...

As health education specialists, we'll be recognised and sought after as leading practitioners. Through collaboration our resources and expertise will ensure we are supporting children and families in every community.

to children, youth and families

We want to be accessible at any time, be relevant and topical, create a sense of community and be a source of information and support. Harold will strengthen his relationship with children at and beyond their primary school years so they can make healthy decisions and reach their full potential.

By 2025 we will engage directly with 85% of children and families each year

OUR ORGANISATION

We visit over 80% of New Zealand's primary and intermediate schools.

Our success lies in our local Trusts each ensuring their local community needs are met. Without strong and vibrant community trusts our organisation can't achieve its goals and continue to grow.

For over 25 years our volunteer Trustees have ensured children in their local community can participate in our programme.

Between our 32 Trusts they own and operate 45 mobile classrooms and employ a team of Educators who are specialists in teaching health. Each Educator is a registered teacher. We are one of the very few independent organisations that hold the status to approve teacher registrations.

Across our 32 Trusts, Trustees raise the \$3.5m needed each year to subsidise the cost to schools by 80%. Keeping userpays costs to a minimum helps us ensure that no child misses out.

The ability to generate funds is what local community Trusts are about. A few of Trusts 2016 fundraising events included:

Dunk for Harold, Rotorua.

Over 100 dunkers' braved the cold and took a dip in the Blue Lake in the middle of winter.

The Great Auckland Duck Race. 5000 small ducks were purchased, transformed and released into white water at the Vector Wero Whitewater Park in south Auckland.

Fight For Life Ed Gisborne. Members of the public got in the ring – braving blood, sweat and tears for a great cause, raising \$45,000. The 2016 event trials were the biggest in the Gisborne event's four-year history.

Ø

CONTINUOUS IMPROVEMENT

In 2016 the World Health Organization released a report on ending childhood obesity. The report makes six key recommendations, the fifth recommendation is to "implement comprehensive programmes that promote healthy school environments, health and nutrition literacy and physical activity among school-age children and adolescents." It promotes:

- Inclusion of nutrition and health education within the core curriculum for schools.
- Making food preparation classes available to children their parents and caregivers.
- Improving the nutrition literacy and skills of parents and caregivers.

With this in mind we formed a collaborative partnership with Garden to Table to launch the **Empower** programme and gained support from The Warehouse Group as a recipient of their Annual Gala Dinner charity fundraiser.

Empower is a comprehensive and sustainable programme to help tackle the biggest epidemic to threaten NZ children this century – obesity.

Children take part in multiple lessons within the Life Education classroom to learn about a balanced diet, meal planning and understanding their body and the nutrients it needs.

This knowledge is turned into action by growing, harvesting and cooking fresh vegetables and food with Garden to Table.

Visit www.empowerkids.org.nz for more information.

In 2015 The University of the West of England and Dove released findings that show... *

Only 4% of women around the world consider themselves beautiful, and anxiety about appearance begins at an early age.

An estimated 25% of adolescent girls and boys are dissatisfied with their appearance.

Dove believe that women and girls of all ages should see beauty as a source of confidence, not anxiety. Dove believe that self-esteem is vital to the healthy development of all children – and so do we.

With this in mind we've joined forces to support teachers in delivering 'Confident Me' workshops in schools.

'Confident Me' has been carefully designed for students aged 11 to 14 years old (boys and girls) to help students build body confidence. It helps them to avoid valuing themselves and others on the basis of appearance. Participating students develop respect for their own individuality and the diversity they see around them, gaining skills and confidence to be the best version of themselves.

'Confident Me' provides linkages to the Health and Physical Education, Social Sciences, and English learning areas at Level 4 in the NZ Curriculum.

Effectiveness of a brief school-based body image intervention 'Dove Confident Me: Single Session' when delivered by teachers and researchers. Behaviour Research and Therapy 74. Phillippa C. Diedrichs et al. (2015).

CHALLENGES FACING CHILDREN AND ADOLESCENTS TODAY...

*

These challenges shape our five teaching strands. They all interweave because health and well-being is rarely isolated to a single topic.

OBESITY

"One in nine children (aged 2 to 14 years) are obese and a further 21% of children are overweight. 15% of Māori and 30% of Pacific children are obese." 1

The effects of being overweight for a child include low self-esteem, bullying, eating disorders, chronic ill health and eyen suicide.

Children learn how food gives them energy, how it helps them grow and how their body digests it. They explore the variety of nutrient-rich foods needed every day, what a balanced diet looks like and how to read packaging. Lessons may include Science and Human Biology.

WE TEACH HUMAN BIOLOGY

Children learn about body systems and how they work to carry food, water and oxygen around their body. Children explore their brain and the nervous system as the control centre for their body. They learn that stress affects people in a variety of ways.

SUBSTANCE USE

"Approximately 11% of New Zealand high school students use substances at levels that are likely to cause them significant harm and may cause long-term problems. Students with very high substance use (including binge drinking) have more challenging family and school lives than others." ²

WE TEACH SUBSTANCES

We focus on the effects of alcohol and other drugs, both legal and illegal. Children learn how to identify the difference between helpful and harmful drugs, how drugs can change the way the mind and body works and the impact drugs can have on people's lives. Children explore the power of advertising, peer pressure and social influences. We want to empower children to make informed decisions as they enter their teenage years.

WE TEACH RELATIONSHIPS AND COMMUNITIES

This strand focuses on connecting and relating to others. Lessons look at friendships and relationships as well as the need to show respect and consideration for others. Children learn about leadership and teamwork, coping with change, pressure and conflict, and digital citizenship. Bullying and cyber safety are often subjects schools request our expertise and support with.

31% of lessons taught

"New Zealand has the worst teen suicide rate in the developed world... the number of adolescents reporting two or more psychological symptoms (feeling low, feeling irritable, feeling nervous, and having sleeping difficulties) is increasing." ³

"Six out of ten girls are so concerned with the way they look they participate in less in daily life – from going swimming and playing sports, to visiting the doctor, going to school or even offering their opinions." ⁴

Confidence in their own identity and where and how they fit in are challenges that come with growing up. Children learn about feelings and emotions, and that they are special and unique and it is okay to be different. Value is placed on the idea that each individual's personality makes them unique and it shapes how they make decisions and respond to situations.

12% of lessons taught

BULLYING

"Rates of school bullying in New Zealand are among the worst worldwide. About one in three Year 4 students report being bullied on a weekly or more frequent basis. 94% of New Zealand teachers believe that bullying occurs in their school and 68% believed it begins very early in a child's life (between pre-school and Year 4)." ⁵

"Nearly one in ten students have been afraid that someone would hurt or bother them in the past year." ²

- 1. Annual Update of Key Results 2015/16 New Zealand Health Survey.
- 2. The Youth '12 National Health and Wellbeing Survey of New Zealand secondary school students.
- 3. UNICEF Innocenti Report Card 14: Children in the Developed World.
- Effectiveness of a brief school-based body image intervention 'Dove Confident Me: Single Session' when delivered by teachers and researchers. Behaviour Research and Therapy 74. Phillippa C. Diedrichs et al. (2015).
- Bullying in New Zealand Schools: A Final Report, Victoria University of Wellington. Vanessa A. Green et al. (2013).

OUR INTEGRATED APPROACH

Through a shared planning approach with schools we support children in each school community.

96% of teachers report they would recommend us to other schools in their area.

Schools book us 12 months in advance to visit.

Our Educators liaise with teachers, discussing potential topics across our five learning strands and big questions.

Students attend two to three lessons in mobile classrooms with our Educator and Harold.

Lessons are planned by our Educators to meet schools' individual needs and teachers are given classroom resources.

Teachers provide feedback on how we meet their students' needs.

We review our practice and resources to reflect feedback and changing needs.

Teachers access our online portal throughout the year and integrate our resources into their classroom teaching.

We offer new initiatives that align with the NZ Curriculum such as Empower.

Students continue learning through workbooks, school classroom resources and at home with their families.

"It is 100% about the well-being of students. It provides them with quality researched and age-appropriate information to support them in their social, emotional and personal growth."

Te Awamutu Intermediate

"We loved the presentation of lessons in the classroom, on site, with such an enthusiastic presenter. The children really love the sessions, they feel they have a personal connection with [Educator] and they really remember the new learning for a long time. Even this year the children (who were just 5 last year) remembered new learning from last year."

Gulf Harbour School

"Life Ed has built up such a positive reputation. Students thoroughly enjoy going into the mobile classroom and are captivated by Harold. They are entertained as they are learning."

Saint Francis Xavier

♥

MEET SOME OF OUR TEAM

Aileen Winmill Trust Chair, Coastal Otago

With an eagerness to contribute to Life Education's work after involvement with Rural Women NZ, Aileen became a Trustee in 2013, stepping up to Chair in 2015. Aileen loves that the rationale behind Life Education's work aligns with the Frederick Douglass quote:

"It is easier to build strong children than to repair broken men."

Being the Chair gives her the opportunity to make an impact and share what we do.

Aileen is one of 32 Trust Chairs across the country.

"I am proud to represent an organisation whose philosophy and work I believe in."

Kapa Te AhoEducator,
North Wellington

Kapa loves working with young people because they keep her energized and positive. Kapa believes that the health curriculum is important and enjoys teaching it in fun and engaging ways.

"I love that the students can easily see the value of what is being taught in the classroom, they're interested and empowered by what Harold has to offer."

Kapa is one of 46 Educators across the country.

Jason StreetMainfreight Volunteer
Truck Driver

Jason has moved Auckland Central Trust's mobile classrooms for more than 10 years.

"If it's helping educate kids then I'm all for transporting the classroom to where it needs to be."

Jason enjoys seeing kids wave to him and get excited when they see Harold on the road. In 2016 Jason's contribution was recognised when he was presented with a national Life Education Outstanding Community Service award.

VOLUNTER RECOGNITION AND NEW LIFE MEMBERS

Volunteer recognition awards were introduced in 2011, with the national Board conferring Life Memberships on four inaugural recipients. Since then community Trusts have been invited to nominate individuals for Life Memberships, Distinguished Service and Service awards.

Several Trusts put forward nominations and awards were presented at our annual Trustees conference.

LIFE MEMBERS...

ASTRID MARTINWestern Bay of Plenty

Astrid started at Eastern Bay of Plenty Trust as an Educator in 1996. A few years later she became the Western Bay of Plenty Educator, a role she held until 2003.

In 2003 Astrid moved on from teaching and became a very successful Chairperson and Trustee until 2008. Astrid's passion for Harold extended from the classroom to supporting the region. Astrid was the driving force behind the growth from one classroom to two, finding the resources and funding to make this happen.

Astrid continues to support the Trust, from prizes for raffles and coming to meetings where there is need for her expertise.

KAY CROSBY Gisborne East Coast/Wairoa

Kay has been an active Trustee for 20 years. Kay was a Rotarian who initially supported the establishment of Life Education Gisborne.

Kay's expertise is in publishing and promotion and she has been invaluable in managing the artwork on the exterior of our mobile classroom, now in its third iteration. Kay arranges all design and printing for the Trust and plays a full and loyal support role in all other aspects.

JO COUGHLAN **Wellington City**

Jo was involved with the Wellington Trust for 16 years before retiring in 2016; for 11 vears she held the role of Chair.

Jo was instrumental in running many large fundraising events including Guess Who's Coming to Dinner at Government House and three art exhibitions.

Jo served on the LET NZ Board for the maximum term of six vears from 2010-2016 and held the role of Deputy Chair from 2011-2016.

IAN MCBRIDE Mid and South Canterbury

In April 1988 the South Canterbury Life Education committee was formed to set up Life Education in Mid and South Canterbury.

lan was employed part-time to canvas schools about Life Education - and when the official Trust was formed in 1990 he became a Trustee. Ian held the position of Chairperson from 1999 until he retired from the Trust in 2006.

lan was the driving force behind the creation of the Trust's Harold Club in 1997 and is now an honorary member regularly attending functions.

OUR NATIONAL SUPPORTERS

Independence means we rely on our partners valuing what we do.

We have a family of national partners who together make up a third of our income. However, more significantly, it is these long-term relationships that enable us to plan and commit to initiatives beyond a single year.

OUR CHARITY GAMING PARTNERS

"I think the service and teacher involved in programme delivery at our Primary School does an outstanding job. For all the years we have been involved I have never been anything but incredibly impressed by the planning, delivery and communication with staff before and during the visit. I was particularly impressed by the coverage and awareness of more recent themes in education - mindset work of Carol Dweck. Many thanks for providing such a powerful programme which supports school focus areas and adds a special dimension to learning which the children just love!"
